Profit per trade

X1 X2 X3 X100 X150 X200

IQ Reached 5 million Members

Are you ready to embark on an exciting journey of predicting the price movements of Bitcoin (BTCUSDT)? It's time to put your skills to the test and earn profits!

Here's how it works: Predict if the Bitcoin price will rise or fall by the "LIVE" phase. If you choose "UP" and the "Closed Price" is higher than the "Locked Price," you win! If it's lower, strategize for the next round.

Alternatively, select "DOWN" and if the "Closed Price" is lower than the "Locked Price," congrats! Be cautious if it's higher, as you'll need better analytical skills.

Join now, create your account, and dive into the world of IQ Prediction. Unleash your intuition, make precise forecasts, and seize the opportunity to earn profits in this captivating game.
